

TEMPERATURE WILL CONTINUE WARM

Todd Predicts Fine Weather for Holiday Shoppers

UNTILL AFTER CHRISTMAS

There Are No Indications of Extreme Winter.

For Wichita and vicinity the forecast is: Fair weather and warmer. "The indications are that the weather will continue pleasant until Christmas time. Overcoats and winter wraps may be discarded for at least a little while," says Mr. Todd.

Clear weather prevails except over the upper Missouri valley and portions of the Pacific coast and plateau region. Moderate temperatures are general except over the lake region, the Missouri, Ohio and upper Mississippi valleys. The precipitation in the past twenty-four hours has been unimportant, except at San Francisco, where one inch was recorded.

The pressure is high over western Colorado and the upper Mississippi valley, and lowest over northern Montana. The minimum temperature for Wichita and vicinity is 25 degrees; the maximum, 35 degrees.

PREDICTS GREAT THINGS

J. P. Weigand Thinks Wichita Will Have Population of 100,000.

J. P. Weigand, of Conklin & Weigand, made some very optimistic estimations and predictions yesterday to a reporter for the Eagle which are good food for statisticians and mathematicians.

Mr. Weigand said in part: "I have traveled over a great portion of these United States, and have noted particularly the most interesting features in the upbuilding and development of cities, and I have arrived at a satisfactory conclusion as to the future of many of our municipalities."

"Of course, it is natural for me to speak in the highest language of Wichita, because I am interested, but it is an interesting fact that we are destined to become the largest city in the state of Kansas. My reasons? Why, we are located just far enough from any town of importance to be safe from any injury in that respect; and we will in the course of time be the greatest railroad center in the state; we are situated in the finest wheat producing belt in the world; we have a healthy place for homes; and to cap the climax, we have a genuine class of citizens as the world furnishes."

"With numerous wholesale houses, manufacturers, packing houses, mills and other industries now established and to be established, we may rest assured that Wichita is on a magnificent and limitless progress."

"It was but a few years ago when this part of Kansas was known to the far East as a lonely, hopeless desert and soulless waste, but that opinion has given away to a truer and better verdict. Now we are no longer a barrenly called the driest, hottest spot on the globe; instead, we are rightfully admired and accented as the 'Garden of America.'"

"And Wichita? She is the queen of the western elysium."

"She will grow and surge on to the front. Nothing can hold her back. I think I am not over-estimating the case when I state that we will have in the year of 1910 a population of 50,000; and by 1925 our population will be 100,000."

"What is there to obstruct us? What to keep us from going even beyond this estimate?"

JURY GIVES VERDICT

W. D. Larimore Died of Heart Trouble at Joplin.

L. W. Gill and Francis Oliver returned from Joplin yesterday morning with the body of W. D. Larimore, who died at that place. At a coroner's inquest held Wednesday afternoon, a verdict was given that Larimore died of heart disease. It is thought that while walking along the street Larimore was taken suddenly ill. He staggered into a nearby rooming house and procured a place in which to rest. Shortly afterward he died before the hotel management discovered that he was very ill.

Funeral services will be held this afternoon at 2 o'clock from the home on College Hill. Saturday morning the body will be taken to Wellington, a former home of the Larimores for burial.

IS GENERAL AGENT

Hal Ray Gets Fine Appointment of New York City Position.

In an Eagle of several days ago an article was published to the effect that Hal S. Ray, formerly district passenger agent for the road at this place, but who was later general passenger agent for the company at Denver, but was recently transferred to New York City, out the title of his new position could not be learned. He is general agent for the Rock Island at New York.

According to the Kansas City Journal, Mr. Ray secured his new position due to the following circumstances:

In Mr. Moffet's eastern office was a chief clerk whom Mr. Moffet trusted implicitly. But recently it became known that the clerk had been losing his money gambling, and he was trapped passing a bogus check on another agent of the company. This check, with others on the company aggregating more than \$1,000, were recovered in a raid led by District

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rose bush which, despite the most beneficent environment of soil of sunshine—and of atmosphere—seemed never to achieve a healthy growth?

A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect.

You can not cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vasoline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newb's Herptide destroys the germ, and healthy hair is the result.

Sold by leading druggists. Send 1c in stamps for sample to The Herptide Co., Detroit, Mich. Moore Drug Co., special agents.

Rheumatism

What is the use of telling the rheumatic that he feels as if his joints were being dislocated?

He knows that his sufferings are very much like the tortures of the rack. What he needs to know is what will permanently cure his disease.

That, according to thousands of grateful testimonials, is

Hood's Sarsaparilla

It promptly neutralizes the acid in the blood on which the disease depends, completely eliminates it, and strengthens the system against its return. Try Hood's.

Attorney Jerome, in New York, on a "fake" wire tapper's racket shop.

The place was running as wire-tappers' concern, but the raid showed up that it was not even that. The wires ran no farther than under the counter. A small battery, the sounder and the imaginations of the keepers were the only race courses that the concern ever got any advance information from.

The clerk was not prosecuted. But his defalcation made a bad showing for Mr. Moffet's office, and the transfer is the result. Mr. Moffet was well known among Kansas City railroad men. He was with the Rock Island here for a number of years, and he was popular. While the transfer still leaves him in a good position, it is a step backward in the ladder of success.

RALPH BAIN TO TESTIFY AT TRIAL

Defence Will Try to Prove That Flynn

INTENDED TO SHOOT BAIN

Defendant to Admit Shooting in Self Defense.

The people of this city who read the preliminary trial of Ralph Bain and made up their minds that he would not be able to make very much of a defense may find themselves mistaken when the case comes on for final trial in the January term of the district court. The defendant in such cases does not have to put in any evidence at the preliminary trial unless he sees fit to do so. When Ralph Bain was arraigned before Judge Alexander for a preliminary hearing on the charge of killing William Flynn there was not a word said in his defense but enough has transpired since that time to give the county attorney a pretty good idea of what the line of defense is going to be.

During the preliminary hearing the attorneys for Bain by a rigid cross examination of Ines Miller, who was a witness for the state, got her to admit that a revolver was found in her door yard the next morning after the killing and that she had made an effort to conceal it and for that purpose had taken it out of the city. It is now understood that the defense will try to show at the trial of the case that this revolver belonged to Ines Miller and that she gave it to Flynn just before he was shot by Ralph Bain and that after he was shot and left the room he attempted to hide the revolver by throwing it into the yard where it was picked up the next morning by a neighbor.

It is also understood that the defense will try to show that Flynn induced Bain to go to Ines Miller's place that night. That he spoke to another man about this and asked him to get Bain to go to the Miller place on Tremont street and that this was after the reported disturbance in the West Douglas avenue resort earlier in the evening.

James Conley has been retained to assist County Attorney Eckstein in the prosecution of the case and the defense will be conducted by Adams & Adams and S. B. Amidon. Some of the attorneys predict that it will be one of the most hotly contested cases ever tried in the district court of this county. It is understood that Ralph Bain will go on the witness stand in his own defense and admit the shooting and claim that he did it to save his own life. He will swear that he believed that Flynn was going to shoot him and he will attempt to show by other evidence that he had grounds for this belief.
